# SPENCER AND CO.'S CIGARS.

AWARDED SILVER MEDAL
FOR GENERAL EXCELLENCE AT THE MADRAS AGRI-HORTICULTURAL EXHIBITION,
FEBRUARY 28TH, 1891.

## CAUTION!

IT has come to our knowledge that many unscrupulous Native Firms, with and without European designations, in Trichinopoly, are manufacturing and supplying dealers in the Punjab, and North-West Provinces, with Cigars of similar shapes and sizes as ours, and bearing the same names as those of our manufacture, such as:—

"SALISBURYS," "FLOR DE SUMATRAS,"
"BEACONSFIELDS," "GOLD MOHURS,"

with the evident intention of leading the Public to believe that the inferior, and in most cases worthless, articles sold by them to the aforesaid dealers are Cigars manufactured by us.

We beg to draw special notice to the fact that every box of Cigars sent out by us has the Registered Trade Mark of our Firm branded on the lid, and a facsimile of our signature appears on the end Label; and to say that any Cigars, bearing the following names, *viz.*:—

"SALISBURYS," "IMPERIALS," "MAYOS,"
"BEACONSFIELDS," "SUMATRAS," "LITTLE RANDOLPHS,"
"GOLD MOHURS," "BORNEOS," & "SIESTAS,"

not bearing our Brand and Signature, as above stated, are Spurious Imitations of our now much-appreciated Brands.

## A REPUTED CHEAT BROUGHT TO JUSTICE.

At the Esplanade Police Courts, yesterday, before the Chief Presidency Magistrate, Rustomjee Pestonjee, on remand, was charged by Inspector Briscoe, of the A Division, with cheating in two instances. It will be remembered that, at the last hearing the prisoner was charged with cheating Mr. Arnold Bachmann, of Messrs. Henniger and Co., of Rs. 15 in cash. A second offence of cheating Messrs. Laidlaw and Whiteaway, general merchants, Fort, of Rs. 31-12 was brought against the prisoner yesterday and evidence adduced to support the charge. The testimony showed that Rustomjee went to the shop on Monday, April 13, and selected two pairs of boots from a number of samples, settling the price at Rs. 18-4. After plunging his hands into his pockets the customer expressed his surprise at not having his purse with him, and requested a peon might accompany him with Rs. 31-12 in cash, promising to give him a fifty-rupee note. Krishna Ragoo, a peon, was accordingly sent with the prisoner, who induced him to deliver up the cash and told him that if he went to a house adjoining the Superintendent's at Colaba, and delivered the chit he would receive the fifty-rupee note after delivering the boots. The peon on doing this found he had been sent on "a wild-goose-chase" and returned to the shop with the parcel. The firm fined him two months' pay, because he parted with the cash against all contrary instructions. Some days ago whilst Krishna was passing the Great Western Hotel he saw the prisoner entering a tram-car, and immediately running up seized him and handed him over to the police. Corroborative evidence was adduced.

The prisoner in his defence said he was quite innocent. The two cases brought against him were absolutely false. If he had wanted to cheat he should have gone away with the whole of the property. If his intention had been to cheat he could have cheated many in eight days. He had no witnesses to call.

Inspector Briscoe deposed to two previous convictions and said there were numerous charges of cheating against the accused.

The prisoner, in answer to the Court whether he admitted previous convictions of nine and twelve months, said, they were about seven years ago, and those convictions have served the police on the present occasion with a very good handle to fix this case on him.

The convictions being proved the Magistrate sentenced the accused to undergo rigorous imprisonment for two years.

A heavy snowfall, extending over the greater part of central and south-west Germany, took place during Whitsuntide. The Berlin correspondent of the *Daily News* says tourists coming from Thuringia state that in the Thuringian Forest, from Oberhof to Eisenach, the fall was of remarkable severity, and similar reports come from the Harz Mountains. On the Rhine, in the Eifell Mountains, in Hesse, in the Odenwald and the Tannus, snow fell a foot deep. Hailstorms did great damage to the vineyards and fields. The fruit trees, which were in full blossom, have suffered greatly by the frost. In some places the roads are snowed up. The Upper Rhine and the Moselle are rising rapidly.

*Holloway's Ointment and Pills.*—These world-renowned remedies are confidently recommended to miners, navies, and all who have to work underground, or where noxious atmospheres exist. The minute particles of coal or metal which permeate the air in such places tend to block up the lungs and air-tubes, giving rise to bronchitis, asthma, and palpitation of the heart. In Holloway's remedies will be found a safe and easily used medicament, for the penetrating properties of the Ointment relieve the local congestions and the mildly laxative effects of the Pills cause the liver to act freely, and the breath to become unembarrassed. By early resort to these remedies many a serious illness may be averted, and soundness of health maintained.

## THE WEATHER.

### OBSERVATIONS TAKEN AT 8 A.M. ON THURSDAY, the 11th of June, 1891.

1. The barometric readings are all corrected to Calcutta standard and reduced to the same temperature (32°), and also of the sea level. The 2nd column under the head "Pressure" gives the difference between the barometer reading of to-day and yesterday at each station, and + prefixed to the number implies that the barometer has risen, and — that it has fallen.

2. The 2nd column under the head "Wind" gives the average motion of the air in miles per hour during the past 24 hours, and is obtained by dividing the total number of miles of wind registered by an anemometer during the previous 24 hours by 24.

3. The temperatures given in the table are of the air in the shade or in a small shed with open sides, and a thatched or straw roof. The maximum (max.) and minimum (min.) temperatures are the highest and lowest temperatures during the 24 hours preceding 8 a.m. The 6th column under the head "Temperature" gives the mean of the maximum and minimum temperature, and is approximately the mean temperature of the day. The 7th column gives the difference (with the proper sign) between the mean temperature of to-day and yesterday.

4. The humidity is given as a percentage expressing the rate of the actual amount of moisture in the air to the amount required to saturate it.

5. The amount of cloud is expressed in terms of the number 0 to 10: 0 denoting a cloudless and 10 an overcast sky.

6. The last column under the head "Rainfall" gives the difference with its proper sign between the actual rainfall from 1st November to date and the average rainfall for the same period.

Summary.

With the exception of a few unimportant local rises, the barometer has fallen everywhere. The fall has been rapid in Rajputana and moderate or slight in all other places. Readings are lowest in the Indus Valley and highest in Ceylon. The bario gradients continue to be very steep over nearly the whole country, and the isobars afford slight indications of disturbed weather between Karwar and Mangalore. The barometer reads below the normal average at Delhi, Agra, Karachi, Ajmere Jacobabad, Deesa, Saugor, Jubulpore, Raipur and Nagpur, and above it elsewhere. Winds are south-easterly at Allahabad, while over the rest of the country they are generally from the south-west and north-west. The force has been strong at Karachi, Ajmere, Deesa, Rajkot, Neemuch, Amraoti, Akola, Malegaon, Bombay, Poona, Secunderabad, Masulipatam, Bellary, Madras, Coimbatore, and Trichinopoly. This morning the wind velocity was 36 miles per hour at Neemuch, 34 at Rajkot, 28 at Poona, Khandwa and Deesa, 26 at Nagpur, 24 at Karachi, Ajmere and Secunderabad, 22 at Akola and Malegaon, and 18 at Amraoti. The maximum temperature is below the normal average at Delhi, Agra, Karachi, Rajkot, Neemuch Saugor, Jubulpore and Coimbatore, and above it in all other districts. The highest maximum was 108° at Masulipatam. Nights are more or less cool at Delhi, Agra, Allahabad, Karachi, Neemuch, Mangalore, Coimbatore and Negapatam, and are hot elsewhere. The lowest temperature registered last night was 67° at Bangalore. Humidity changes are irregular and the skies are overcast at Trichinopoly, Masulipatam, Cochin, Calicut, Mangalore, Belgaum and Delhi, and are partially clouded in several other places. Heavy rain has fallen at Calicut (3·85") and Mangalore (2·19"), and at Coimbatore, Secunderabad, Cochin, Karwar, Goa, Ratnagiri and Bombay there have been light to moderate showers. The baric and thermal gradients between Karwar and Mangalore are both unusually steep, which indicates the probability of strong winds, equally unsettled weather and heavy rain. Between Karwar and Bombay the gradient is weaker than usual and light showers may be expected. In the Punjab and the Madras Presidency conditions are favourable for a few local showers.

*P.S.*—The rainfall as measured at different places in Bombay will henceforth be given in the above form in which the actual fall at a particular station is given immediately after that station and the total rainfall up to date in brackets. The actual fall on a certain day is always to be understood as the amount received between 8 a.m. of the previous day and 8 a.m. of the day of publication. The abbrevations "E. G. H." and "G. T. H." mean "European General Hospital" and "Gokuldas Tejpal Hospital" respectively.

SIMLA, June 11.

The barometer has risen slowly in Sind, Kattiawar, Malabar, Ceylon, and part of Burma; and fallen elsewhere; the decrease being brisk in East Punjab and East Rajputana. The depression over the Punjab is larger than it was yesterday; but otherwise the distribution is similar to that then reported. Gradients are steep over the Peninsula. Winds are northerly on the South-west Coast, westerly in other parts of the Peninsula and the central stations; southerly in Burma; and variable up the Gangetic plain; the force being very strong across the Peninsula and the central parts of the country; but on the West Coast itself the strength is normal. The mean temperature is below the normal in Punjab and North-eastern India; the highest maximum being 120 degrees in Jacobabad. Rain has fallen in Burma, Bengal, and west of the Peninsula, the quantity being still heavy in Malabar.

## BOMBAY MARKET REPORT.

THURSDAY EVENING, JUNE 11.

WITH the advent of the S.-W. Monsoon—of which there have been signs during the past week, though the regular setting in of the rains seems likely to be late at the Presidency this year—business in all directions is shrinking into a smaller compass. Cotton has attracted but little attention either from exporters or local consumers, and only small transactions on about the basis of previous price, have been reported. Purchases of Wheat and Seeds have been upon only a moderate scale from day to day; but very large supplies of the former continue to come to market. The course of Exchange has varied a little in sympathy with advices regarding Silver, rates closing this evening 1-16d. higher for Bank Bills, but on the same level for Private Paper, compared with last Thursday evening's quotations. Government Paper has advanced ⅜ per cent. in Fours. Freights have been weak, with relets at lower rates pressing on the market; but the feeling is now rather steadier. Business in Imports is contracting as usual, pending the first continuous rainfall; and prices generally have a downward tendency in view of increasing stocks.

MONEY.—A decrease of 2¼ lakhs in the Presidency Bank's Cash Balance during the period covered by the Statement of Affairs issued on Monday, did not, of itself, convey an idea of the trade movement of Money in relation to the Bank, and, by inference, in the open market; and the figures given in the Return showed that, but for considerable Government withdrawals the balance, would have been materially the other way and would, in fact, have shown a good deal larger increase than was disclosed by the previous Return. The money temporarily withdrawn for the late holidays had been finding its way back to the coffers of the Bank; and accordingly an increase of 26½ lakhs was shown in Private Deposits; and though there had been an accession of some 8 lakhs to Loans, Bills Discounted had again decreased somewhat, the net falling-off in trade requirements having been represented by 19¾ lakhs. The demand for Money from that quarter may now be expected to become still more sluggish; and though the advent of the S.-W. Monsoon does not now mean all to the export trade which it did when Bombay was dockless, the rainy season remains the period of greatest financial ease, apart from exceptional causes of demand, and Government manipulation of its cash balances. The Bank's minimum rate remains at 4 per cent.

EXCHANGE opened firm last Friday morning, with sellers of Bank Demand at 1s. 4⅞d., and only one buyer of three months' sight Credits for the mail at 1s. 5 3-32d. The latter was soon satisfied, however, and rates closed at 1s. 5⅛d. for the mail, 1s. 5 5-32d. having been the quotation for June delivery. On Saturday, in presence of a further advance in the price of Silver in London, the market opened firm again at an advance of 1-32d. on Friday evening's rates, say at 1s. 4 29-32d. for Bank Demand, and 1s. 5 5-32d. for three months' sight Credits; and the feeling was maintained to the close, though there was scarcely any business doing in either direction. The market reopened on Monday morning with a weak feeling, one Bank only quoting 1s. 4 29-32d. for Demand. A demand set in for remittance, and a large business was put through at that rate, and afterwards at 1s. 4⅞d., the latter, however, having been doubtful at the close. A few three months' sight Credits were placed, for near delivery, at 1s. 5 3-32d.; but beyond these scarcely any Merchants' Bills came out. On Tuesday the market opened quietly at 1s. 4 27-32d. for Bank Demand, and 1s. 5 3-32d. for three months' sight Credits, for the mail, and after being flat all day closed weak at a decline of 1-32d. Some demand for Bank remittance obtained early in the day; and later, a few Credits came out, for early delivery, at 1s. 5 1-16d. Yesterday the feeling was quiet but steady at Tuesday evening's rates of 1s. 4 13-16d. for Bank Demand, and 1s. 5 1-16d. for three months' sight Credits. The latter were offered at 1s. 5 1-32d. without finding a buyer, and a few transactions took place, for this month's delivery, at 1s. 5 1-16d. for Sterling Bills, and 1·80 for Francs, the feeling at closing having been steady, with these rates doubtful. This morning the market opened firmer, and at 1s. 5 3-32d. for June delivery, and 1s. 5⅛d. for July, a moderate amount of three months' sight Credits was placed. Some Bank Demand was also done at 1s. 4⅞d. for this month, and at 1s. 4 15-16 for August; and the market closed steady at our quotations, say :—

GOVERNMENT PAPER, under the influence of the improvement in the governing metal, was strong and advancing on last mail day, closing quotations for Fours having been 106½ for Money; 106 5-16 for the Settlement at the end of this month; and 106⅜ for the July Account. On Saturday, from the same causes, the movement was again upward and a further rise of ⅛ to 3-16 per cent. was at one time attained in Fours, both for Money and Account; 106⅝ to 11-16 for cash; 106½ for the settling day at the end of the month; and 106 5-16 for the 30th July account having been quoted. At the close, however, there was a weaker feeling, and 1-16 to ⅛ lower than the previous extreme rates for Fours was named. There was some rally in rates for Four per Cents on Monday, the partial decline which took place at the close on Saturday having been recovered, quotations again ruling at 106⅝ to 11-16 for Money; 106½ for the next account; and 106 5-16 for the end of July, with a steady feeling in the market. At closing, however, 103 9-16 was the cash quotation. On Tuesday the feeling was weak and rates at one time declined ⅛ per cent. Fours having been quoted at 106¼ to 9-16 for cash; 106⅜ for next settling day; and 103¼ for the 30th July account; but before closing a recovery took place, and the final quotations for Fours for Money was 106⅝, with account rates in proportion. Rates drooped again in the earlier part of the day, and quotations for Fours became 106 9-16 for Money and the next Settlement, with 106½ named for the July Account; but the feeling became stronger towards the close, and final rates were ⅛ per cent. higher than the above. To-day the market has been firm at a further advance in rates, and we quote at closing 106¾ for Fours for Money; 106⅝ for the end of the month; and 106 7-16 for the 30th July; with 4½ per Cents. the same as they were a week ago at 107½, nominal.

Municipal 5 per cent. Loan is ½ per cent. higher, at 108¾. Port Trust Bonds are unaltered at 103½.

SHARES.—The feeling in this market has remained quiet, and little business has been done on any line during the week; but the tendency of prices generally both in Cotton Mill and Press Scrip has been in sellers' favour, compared with our quotations of last Thursday evening. We note an advance of Rs. 30 in Central India Mill shares; of Rs. 10 each in Dhun, and Western India; of Rs. 5 each in Hindustan, Indian Manufacturing, James Greaves, Southern India, and Victoria; and of Rs. 2½ each in Hyderabad (Deccan), and Manockji Petit. Khandesh, Khatao Mucconji, and Luckmidas, on the other hand, have declined Rs. 5 each; and Mazagon Rs. 2½. In Press shares, Munmar, Volkarts, and New Indore have advanced Rs. 17½, Rs. 15, and Rs. 2½, respectively; East Indian are Rs. 50 lower; Bombay Cotton, Mofussil, and New Berar are all Rs. 5 higher. In Miscellaneous sharers, Bombay Fire are Rs. 50 up; Bombay Flour Mill have advanced Rs. 10; Port Canning, and Kemp and Co., are Rs. 5 higher. Marcks and Co. have advanced Rs. 4; Treacher and Co. are Rs. 10 down. Bank of Bombay shares are Rs. 2½ higher.

### IMPORTS.

PIECE-GOODS.—Mofussil buyers of staple *Grey Goods* having mostly supplied their requirements to the end of the fair season have returned to the districts; and the few who are left have been operating very sparingly. Rates generally are now tending in buyers' favour; and stocks are beginning to show a sensible increase. In *Bleached Goods* only a small business has been passing at drooping rates; and the same may be said of *Turkey Red, Printed, Dyed*, and *Local* Goods. The week's off-take from the Bazaar of *Imported* Goods is put down at 2,800 packages; that of *Local* Goods at 1,200 bales.

YARNS.—Only a small business has been passing in *Imported Twist*, the market for which has been quiet at previous quotations. Sales of *Local Spinnings* for the fortnight ending on last Monday at Hongkong were 3,700 bales, which when added to the sales at Shanghai and at Japan Ports, have aggregated 8,000 bales. This business being looked upon as very discouraging, China buyers have entirely absented themselves from the market, and the business for the week, say 500 bales only, has been mostly made up of purchases for Calcutta and other Indian markets. The market closed quiet this evening at the following official quotations :—

| | | | | | | |
|---|---|---|---|---|---|---|
| Twist... | ...No. 6s | Mule, | As. 4¼ | to | 4½ | per lb. |
| „ ... | ... „ 8s | „ | „ 4½ | „ | 4¾ | „ |

| „ ... | ... „ 30s | „ | „ 6¾ | „ | 7¼ | „ |
| „ ... | ... „ 40s | „ | „ 8¼ | „ | 9 | „ |

METALS.—A large business has been done this week in *Copper*, and prices have advanced 8 annas per cwt. in a firm market. *Yellow Metal* has been taken to only a moderate extent, on the basis of previous rates, and in a steady market. *Iron* has been quiet, and only a small business has transpired; but prices are unchanged, all round.

COAL has been a quiet, not to say a dull market. About 2,000 tons of Dalton's Welsh Hartley, shortly due, have found buyers at Rs. 12 per ton; and 1,000 tons of South Yorkshire have been sold at Rs. 13¼ per ton. We quote forward rates, say for August-September shipment, Powell's Duffryn, at Rs. 16; and Davison's West Hartley at Rs. 15 per ton.

### EXPORTS.

COTTON.—With the near approach of the rains business in this staple has become still more restricted, and the purchases from day to day have been upon only a small scale, exporters having, as usual, been less in the market than local spinners. Dealers lowered their pretensions to the extent of Re. 1 to Rs. 2 per candy at the beginning of the week; but with this exception, previous prices have been generally maintained. The purchases made by the Mills during the week have aggregated some 4,000 bales, consisting principally of Julgaum and other Oomra kinds; Bhownugger, and other varieties of Dhollera and Compta; while exporters have taken about 1,000 bales less, made up chiefly of Bengals, Dharwar, and Bhownugger. The market closed this evening dull, with prices Rs. 2 and Rs. 4 lower than those ruling a week ago.

The Receipts of Cotton of this season's crop during the past week have been 47,300 bales, compared with 71,000 bales arrived in the week preceding, and 52,600 bales in the corresponding week last year; and the falling off in arrivals since the opening of the season now stands at 244,300 bales compared with 1889-90.

The following are to-day's quotations for full-pressed Cotton with the equivalents in Sterling, Cost, and Freight, to Liverpool, via Canal, without Commission, viz :—

WHEAT remained steady in tone to the close of last week, with only a small business passing; but on Monday there was a rather better demand from exporters in presence of a reduction of half an anna per cwt in prices. Thereafter only a small or moderate business was done, but a firmer feeling set in yesterday and prices were put up one anna per cwt. at our quotation, &c.

SEEDS have also been steady in tone throughout the week; but only a moderate business has been passing from day to day. The only movement in prices has been in the case of *Linseed* which has advanced half an anna per cwt. on several days, our closing quotations this evening being as follows :—

## NOTICE TO CORRESPONDENTS.

WIDOW RE-MARRIAGE AMONGST THE SHENVI BRAHMINS.—We have received a number of letters on this subject, which we do not think it necessary to publish. One correspondent exhorts those who are in favour of the reform not to be baffled by the orthodox party's threats of excommunication from the caste. Signatures to a petition to be submitted to the Swami are being taken privately amongst those in favour of excommunicating Dr. Bhandarkar, Mr. Panandikar, and those who dined on the occasion of the remarriage of Dr. Bhandarkar's daughter at Khandalla. It is high time, our correspondent says, that those in favor of reform should call a meeting at an early date, and pass a resolution avowing the principle of widow-remarriage in the community, and send a protest to the Swami, deprecating the action taken by the so-called orthodox party.

# The Bombay Gazette

FRIDAY, JUNE 12, 1891.

PARLIAMENT has just passed an Act forbidding British subjects—by which is to be understood the Canadian subjects of her Majesty—to kill seals in Behrings Sea until May 1892. This Act will be as unpopular in Canada as the somewhat similar measure for prolonging the *modus vivendi* with France in the matter of the Newfoundland fishery rights was to the Newfoundlanders. The objection of the latter to the sanction of the Imperial Parliament being given even temporarily to the French treaty rights was so great that they decided to pass an Act in the local assembly recognising the rights in question for a period of three years. An Imperial loan of two millions sterling reconciled local patriotism to this humiliating submission to *force majeure*. The Dominion Parliament could scarcely be expected to pass a similar measure to meet the diplomatic difficulty arising from the claim of the United States to police the Behrings Sea and prohibit Canadian vessels from sealing therein. After long controversy with Mr. J. G. Blaine, the American Secretary of State, Lord Salisbury has found himself obliged to ask Parliament to pass an Act prohibiting British subjects from pursuing seals in the Behrings Sea for the next year. For a time the British Prime Minister had apparently reason to flatter himself that he had the stronger case, and under this impression he went so far as to order British men of war to the disputed waters to resist by force the capture of Canadian sealers by American cruisers. Of course the ostensible object of the passing of the Act is to give time to submit the questions in dispute to a jury of experts. Some months since the Government of Washington had agreed to submit certain points to arbitration, and this was regarded as virtually a concession of the British Canadian claims. A note addressed by Mr. Blaine on the 14th April to Sir Julian Pauncefote changed the whole aspect of the controversy. When this important document was published in the beginning of May in a Blue Book, it was at once understood in London that Lord Salisbury would be obliged to choose a new line, as that on which he had previously rested his claim had been successfully turned by Mr. Blaine. It appears that in February last Lord Salisbury held that he had made good one vital point when he wrote in a Despatch that "It is now quite clear that the advisers of the President do not claim Behrings Sea as a *mare clausum*, and indeed that they repudiate the contention in express terms." Mr. Blaine pointed out that this expression was put in such a form as to imply—but whether such was Lord Salisbury's intention he did not know—that the United States had rested its contention upon the fact that the Behrings Sea was a *mare clausum*. If that were the intention of Lord Salisbury "it would have been well for his Lordship to specify wherein the United States ever made the assertion. The emphatic denial in my Despatch of December 17, was intended to put an end to the iteration of the charge and eliminate it from the current discussion."

With respect to the complaints made by Lord Salisbury that the American Government had not dealt with certain protests by Lord Londonderry and the Duke of Wellington in 1822 against the claim of the Russians to territorial rights in Behrings Sea, Mr. Blaine refers to his Despatch of December 17, in which he expressly maintained that there was not a single word in those protests which referred to the Behrings Sea, their scope being confined to lands extending along the shores of the Pacific on the North-West Coast of America, south of the Alaskan Peninsula, and shut out from the Behrings Sea. Mr. Blaine also repudiated Lord Salisbury's contention that the claim of the United States rests wholly upon a ukase of 1821 by Alexander I. of Russia. The United States has among other grounds insisted, without recurring to any of its inherited and superior rights in Alaska, that it has as full authority for going beyond the three-mile line in case of necessity as the British Government possesses. Two or three instances of the power Great Britain exercises beyond the three mile line have already been quoted, but have failed thus far to secure comment or explanation from Lord Salisbury. Then comes the precedent on which clearly Mr. Blaine is perfectly willing to rest his case in so far as the contention of Great Britain is concerned. In 1889, just two years ago, the British Parliament enacted a law to control a body of water, 2,700 miles in area, far outside the three mile line, and situated beyond the North-Eastern section of Scotland. Parliament directed that throughout this area of 2,700 miles of sea certain methods of fishing should not be used, under heavy penalties, including confiscation and destruction of nets, &c. This prohibitive legislation did not apply to British subjects only but to foreigners as well. Mr. Blaine quotes the "pertinent sections" of the Act in question empowering the Fishery Board to make bye-laws prohibiting beam-trawling and otter-trawling in any area, or areas defined within a line drawn from Duncausley Head to Caithness and Rathay Point, Aberdeenshire. Any person using methods of fishing in contravention of such bye-laws shall be liable to conviction under summary jurisdiction with a fine of £5 for the first, and £20 for a second or any subsequent offence, "and every net set, or attempted to be set, in contravention of any such bye-law may be seized and destroyed, or otherwise disposed of, as in the sixth section of this Act mentioned."

Now, says Mr. Blaine in triumph, if Great Britain may thus control an area of 2,700 square miles of the ocean on the Coast of Scotland, why may not the United States prescribe a space around Pribijloff Island in which similar prohibitions may be enforced? He then very cruelly parodies the two sections of the British Act as they might be utilised by Congress for a similar purpose in the Behrings Sea. The Note proceeds to banter Lord Salisbury for failing to recognise the common distinction between Pacific Waters and the Pacific Ocean. Lord Salisbury's re-assertion of his contention that the words Pacific Ocean in the Treaty between Russia and Great Britain included the Behrings Sea is laughed at as comparable to a statement that the Mississippi River flows into the Atlantic Ocean, because the Gulf of Mexico is, in a sense, included in the Atlantic. The English Channel belongs to the waters of the Atlantic, but no one says that Calais or Dover is in the Atlantic Coast. The only point at issue is the historical one, and on that point the United States recognises as England did, until quite recently, the validity of the contention of Russia, when Alaska belonged to her, that there is a plain distinction between the Pacific and the Behrings Sea, the Sea of Kamschatka, and the Icy Sea. Mr. Blaine dogmatically asserts that this distinction "must apply to, and must absolutely decide all contention between the two countries, as far as the waters of the Behrings Sea are concerned," Lord Salisbury might be excused if he saw in this declaration an intention to repudiate the claim to make the Behrings Sea a *mare clausum* for the purposes of the present controversy. The United States Government holds that the ownership of the Islands upon which the seals breed—regularly resorting thither, and rearing their young thereon, their going out from the Islands in search of food and regularly returning thereto,—give a property interest in the seals. This right of property was, Mr. Blaine asserts, claimed and exercised by Russia during the whole period of her sovereignty over the land and waters of Alaska; and England, he maintains, recognised this property interest, by abstaining from interfering with it during Russian ownership, and during the first nineteen years of American Sovereignty. This rasping Note concludes with a brief paragraph to the address of the statesmen of the Dominion :—"It is yet to be determined whether the lawless intrusion of Canadian vessels in 1886 and subsequent years, has changed the law and equity of the case theretofore prevailing." This insolent reference to his Canadian neighbours is characteristic of Mr. Blaine. However the six questions at issue will not be determined by Mr. Blaine's brusque presentment of his case, but by the experts who will now have their innings.

MR. ROBERT BARCLAY, of Manchester, a gentleman intimately connected, we believe, with the Eastern trade, has brought out a third edition of his hand-book on "The Silver Question and the Gold Question." It states the case for bimetallism, not perhaps with great novelty—for who shall show us any new thing in these matters?—but with all necessary clearness and precision, and it should be read with more interest in India than most contributions to the literature of the subject, as it deals with it to a very large extent from the standpoint of a merchant interested in Indian trade. Mr. Barclay repudiates with energy the familiar suggestion—endorsed with unnecessary avidity by Mr. Gladstone—that the Bimetallists are Protectionists in disguise. The repudiation is effective enough, and perhaps it would not have been called for if Mr. Chaplin and Mr. James Lowther had not been encouraged to take such prominent parts in the movement. The question whether a low exchange favours Indian exports has been discussed *ad nauseam* in India, and for the present few people will be disposed to disturb Sir David Barbour's conclusions on the subject. Bombay millowners at this time last year were getting on very well with an exchange well over eighteen pence. It meant cheap coal, low rupee rates for plant, and cheap cotton, though the latter advantage, it may be conceded, was not a sign of the benefit that high exchange yields to the cotton grower. It also meant the narrowing of the Indian market for English yarns. So that there are compensating advantages even to an exchange approximating to the rates of the good old days. But bimetallists who are listened to as men of authority have not committed themselves to the doctrine that salvation is to be got in a reversion to the *status quo ante*. That is the peculiar teaching of Messrs. Chaplin and Lowther, who think a two-shilling rupee would keep Indian wheat out of England, and would consequently be good for Lincolnshire and the corn-growing districts of England. The more accredited exponents of the doctrine would be content with a stable rate; whether it should be a high rate is a matter of secondary consequence. "Bimetallists, Mr. Barclay says, "would be perfectly content to leave the rates to a conference in which any interests affected by the matter should be duly represented." Mr. Barclay, we think, exaggerates the extent to which India is likely, in our time, to be an industrial competitor with England. The "vast numbers of artizens, workers in every department of human industry," which the Indian census list contains—and he must have had the census of 1881 before him—do not impress other observers as they have struck him. The cotton mills of all India employed last year scarcely more than a hundred thousand hands—men, women, and children all told,—and what are they compared with the two hundred millions around them? On one point Mr. Barclay has scarcely come abreast of the latest information. English shareholders, he says, will not permit their capital to be exposed to the risks which lending it in silver currency would involve. Recently, however, home capitalists embodied in trust and mortgage companies have ventured into competition with local banks and capitalists in making advances upon mills and real estate in India. They naturally keep the results of the experiment to themselves, but it would be interesting to know how it has worked, and how far the uncertainties connected with exchange have fettered the operations of this kind.

No one who was not in the secret would have thought that on the day after his defeat Sir William Gordon-Cumming would become the hero in a very pretty romance. Yet on the morrow of the verdict that all men thought must be his ruin he led to the altar a lady to whom he had been engaged for some time, and who refused to let the adverse decision of the Court be a ground of release from her pledge. The incident, of course, recalls Lady Dilke's demonstration of her determination to take her own view of the charges brought against her husband, so that as an example of the persistence of womanly devotion through evil report as through good report it is not quite unique. But it brightens the end of what otherwise would have been a very dark story, and Sir William Gordon-Cumming may learn that though cards are denied to him for the rest of his days, he has played just long enough to win in a game in which hearts are trumps. It would be too much for him to expect that he will escape the attentions of novelists or playrights, for he has supplied them with material for a story of which a skilled hand might make much. There are people in Paris who, for the life of them, will not be able to stay their hand in the presence of such an opportunity of depicting what they call *les moeurs Anglaises*.

A BARODA correspondent writes :—The news of the death of Colonel Sir Oliver St. John was received here with deep regret. He served here as Governor-General's Agent after Colonel J. C. Berkeley, and the thoroughness with which he applied himself to every subject that came before him, and the loyalty with which he discharged the obligations of a very exacting office, impressed all who had an opportunity of knowing how he worked, and gained from all who were associated with him, a respect which did not fall short of admiration. His name will long be cherished with veneration in every department of the service.

GENERAL TREVOR, the Chairman of the Kumaon and Rohilkhund Railway, made the following remarks at the half-yearly meeting of the company in London, upon a project which was explained in our columns a few days ago :—"I intended to have said something about projects we have been considering for the development of our railway and of its revenues, but at present we are in the midst of negotiations for connecting our line with the Rajputana-Malwa Railway on the west, and the Bengal and North-Western Railway on the south. Both these lines are of the same gauge as ours, and if we can get all the metre-gauge railways connected together, it will be of great advantage to us as well as to all the other metre-gauge railway proprietors, besides being of incalculable benefit to the country in time of war and famine from the concentration and combination of power that it will render possible when circumstances demand it. We hope shortly to get a decision on the subject."

THE influenza, a Cairo correspondent says, is spreading rapidly amongst the native troops up the Nile. Reports have been circulated in Cairo from Hodeida to the effect that the mortality from cholera is increasing there daily.

THE total number of deaths in Calcutta registered during the week ending 30th May was 211, against 157 and 173 in the two preceding weeks, and higher than the corresponding week of last year by 64. There were 18 deaths from cholera, against 25 and 16 in the two preceding weeks; the number being equal to the average of the past quinquennium. There were no deaths from small-pox during the week, as in the previous week; and 12 deaths from tetanus, against 7 in the previous week. The mortality from fevers and bowel-complaints amounted to 85 and 18, respectively, against 49 and 20 in the preceding week. The general death-rate of the week was 25·4 per mille per annum, against 21·0, the mean of the last five years. The total number of deaths in the suburbs registered during the week ending 30th May was 132, against 144 and 161 in the two preceding weeks, and higher than the corresponding week of last year by 18. There were 27 deaths from cholera, against 42 and 34 in the two preceding weeks; the number being higher than the average of the past quinquennium by 5. There were no deaths from small-pox during the week, as in the previous week; and 8 deaths from tetanus, against 7 in the previous week. The mortality from fevers, and bowel-complaints amounted to 50 and 18, respectively, against 49 and 15 in the preceding week. The general death-rate of the week was 40·9 per mille per annum, against 33·8, the mean of the last five years. The general death-rate of the combined area is equal to 29·7.

M. ALEXANDRE DUMAS FILS has spoken up in favour of the novel with a purpose. He thinks novels ought to convey some lesson, and not be simply idle amusements. He is also of opinion that in the coming generation novelists will not, in fiction, confine themselves to the seamy side of human nature, but that spiritualism and religious belief will grow among us. In fact, he foresees the strong reaction which is to come after this age of materialism and realism.

## PURE PERSONALITIES.

Mr. Nisbet is a Scotchman, and was born in Glasgow about thirty-nine years ago. In appearance he is above the medium height, broad shouldered, thick-set, and with a thoughtful-looking dark face. He speaks at least three modern languages fluently. Not long ago he delivered a lecture in French at the Birkbeck Institute on the subject of "Education," a remarkable achievement for one who has never resided for any length of time in France. Like all men in his position Mr. Nisbet has made enemies, but he has also many friends who say he is the kindest-hearted man who ever possessed a leaning towards the cruel doctrines of the extreme *laissez-faire* philosophers, like Mr. Herbert Spencer.

Henry Brassey's death leaves Lord Brassey with only one brother, the well-known yachtsman, Albert Brassey, of Heythrop. Henry was not so widely known as his brothers, but yet illustrated the social success of the family. Years ago he brought the Preston Hall estate, near Aylesford, in Kent, and here, in a superb modern house, he was most at home. A year ago he bought the thirty years' lease of Lord Ashburton's town house for £50,000. This is the gloomy building known as Bath House, at the corner of Piccadilly and Bolton-street, which was the scene of the splendid hospitalities of the second Lady Ashburton, and where Carlyle first appeared in gilded salons. Mr. Ayrton, who once resided in Bolton-street, found concealed underground communication between his house and Bath House, a fact explained in a way that was not creditable to one of the earlier occupants. The heir of the late Mr. Brassey is a boy of seventeen.

Mrs. Alexander, the novelist, who, to her friends, is Mrs. Alexander Hector, has for some time past been living in the immediate neighbourhood of Maida Vale. Her new story, "Mammon," is just completed, and its successor will almost immediately be upon the stocks, for Mrs. Hector, although she absolutely refuses to work hurriedly, or without due cogitation of her motives, is a wonderfully ready writer. Work to her is no hardship, but the keenest of pleasures, and all her life the literary instinct has been strong in her. Mrs. Hector comes of an old Irish West country family, but was born and brought up "in Dublin's fair city." Among other illustrious ancestors she numbers the great Edmund Malone and the Rev. Charles Wolfe (author of "Not a drum was heard"), both of whom were her grand-uncles. One of her oldest and most intimate friends is Mrs. Lynn Linton.

Mrs. Hector's first literary essay was entitled, "A Stroll through Paris during the Exhibition of '55." This was published in the *Family Herald*, and, a little later on, her work met with a cordial reception from the editor of *Household Words*. Marriage, however, as it so often does, came between the young author and her *metier*; and it was not until her widowhood that Mrs. Hector turned for consolation and distraction to her first love—literature. Her first novel, "Which Shall it Be?" hung fire a little on its first publication, but, after the notable success of "The Wooing O't," was resuscitated in a new edition and sold well. After that the way was clear; success followed success, and now Mrs. Hector stands in the foremost rank of women novelists.

Large-minded and intensely modern in spirit, Mrs. Hector seems to possess the secret of perpetual youth. Hers is the brighter side of the artistic temperament, and, perhaps, it is in some measure her ready sympathy and kindly optimism that complete the charm of her personality, already most attractive, by reason of a rich musical voice, and gracious presence. With all her business she is a devoted mother, and still finds time to see her large circle of friends, for she is much sought after socially. Of her three daughters, one (the eldest) is the wife of an officer in the French army, while the youngest, who shows much talent as a painter, is studying art in Paris.

Dr. John Williams, who was in attendance upon the Duchess of Fife at her confinement, is one of the leading *accoucheurs* of the day, and is obstetrician to the Royal Family. Princess Beatrice has also been professionally attended by him. Dr. John Williams is a Welshman from the neighbourhood of Cardiff, and is now between forty and fifty. He is a quiet, cool, collected man, has a broad, powerful, clean-shaven face and is of the average height. He first came to London some sixteen or seventeen years back, and lodged in the west central district during those early days of struggle for fame. His ascent up the professional ladder has, we are told, been made less laborious by the good offices of his friend Sir William Jenner, whose former residence in Brook-street is now occupied by Mr. Williams. He is reported to make an income considerably larger than the emoluments of a Lord Chancellor.

The veteran who lays claim to the title of the oldest clergyman is the Rev. Joseph Hudson, vicar of Chillingham, Northumberland, who was born on 5th Jan., 1793, consequently at the beginning of the present year he entered on his ninety-ninth year. He was formerly Fellow of Peterhouse, Cambridge, where his son and grandson were also educated. For a few years he was Chaplain to the Forces in America, and was not appointed to the vicarage of Chillingham till 1866. He enjoys very good health, and is in possession of all his faculties, taking a part of both services in church on Sundays. His grandson (the Rev. John Hudson, M.A.), who is also his curate, is the author of "The Dream of Pilate's Wife," a poem published by Kegan Paul and Co., which attracted some attention.

Canon Cadman was buried at St. Martin's Church, in the Cathedral city, where his wife was buried in January last. The canon was seventy-six to the day when he died. He held, in addition to his canonry, the rectory of Holy Trinity, Marylebone, which is in the gift of the Crown, and is a good living. The vacant canonry is also a Crown gift, and is of the nominal value of £1,000 a year, together with residence in the cathedral precincts; but agricultural depression has probably interfered with the income. Canon Cadman spent only a few months annually in Canterbury, but amongst the local evangelicals he was held in respect.

Canon Cadman was a most impressive reader of the lessons, and in this regard, and for his reverent delivery of the beautiful prayers of the Church, was a wholesome ensample to the body clerical—many of whom, be it written with regret, entirely mutilate and spoil the sacred dignity and significance of the pure Saxon of our Bible and Prayer Book. He had a powerful, deep voice, the tones of which could be heard distinctly throughout the length and breadth of the cathedral.

Miss Rose Meller, the latest recruit to the growing phalanx of "Ibsenite" young actresses, possesses a very distinct personality, and in appearance is an ideal "Lady from the Sea." In her clinging green gown, and with her fair fluffy hair, she bears some resemblance to Miss Ellen Terry, whose mannerisms she has evidently closely studied. Miss Meller was a member of Mr. F. R. Benson's company during his tenure of the Globe, and previously to that time had been seen at the Olympic and other theatres. She is still young, extremely enthusiastic upon the Ibsen question, and a most eloquent pleader for the "Master." Her father's charming house is a favorite resort of modern Bohemians, and beneath its hospitable roof actors, musicians, and literary folk are wont to meet.

Those who have read or witnessed Ibsen's "Hedda Gabler" will remember that lady's prettily figurative way of describing Lovborg's state of intoxication. She speaks of him as having "vine leaves in his hair"—a smile drawn from the mythological conceptions of that assiduous patron of the classic Bung—Bacchus. The phrase has now taken root amongst clubmen, and one who has imbibed to the point of inebriation is spoken of as having "vine leaves in his hair."

One of the most remarkable of living pianists is Madame Dory Burmeister-Petersen, Liszt's favorite pupil. For some time she accompanied him on all his travels, and in his later years was the only one to receive private lessons. When, shortly before the master's death, he heard her play his own "Norma" Fantasia he said that even in Tausig's and Beudel's time he had never heard it performed in a more artistict manner.

Madame Peterson was born in Oldenburg, and is still young—considerably on the right side of thirty. She had her first music lessons in Hamburg when eight years old. Bulow heard her play and recommended her to Liszt, who undertook her [illegible] musical education. When quite young she appeared at the principal concerts in Berlin, Leipzig, Pesth, and Weimar, and speedily made a reputation as the greatest living interpreter of Liszt's compositions.

Some little time ago she married Herr Burmeister, a composer of some note and professor in one of the great Continental conservatoires. She has since devoted much of her energy to making her husband's music known, and her success in rendering one of his pianoforte concertos during the last season of the Crystal Palace concerts will be remembered. Her recital at St. James's was one of the most largely and fashionably attended of the season.

ABBEY'S EFFERVESCENT POTASH

COOLING! INVIGORATING! REFRESHING!

Mr. Sims Reeves.

Mr. SIMS REEVES says:—"This preparation is great boon; simple, refreshing and efficacious."

MADAME MARIE ROZE (*the renowned singer*) says:—"I have used your EFFERVESCENT POTASH with remarkable results. It is really wonderful."

It Prevents and Cures Indigestion.
It Purifies the Blood and Preserves the Bloom of Youth.
It is a natural Tonic and most pleasant Drink

There was sickness in Olympus; all the gods were slightly ill;
Jove himself had got a headache, Juno thought she'd take a pill;
Venus languished in her beauty, Bacchus, too, felt very queer.
He'd been drinking all last evening very potent bitter beer.
Tired of nectar and nepenthe, some new drink they wished to find;
Something to refresh the body, and invigorate the mind;
Long they sought, then found and carried up to heaven's high azure vault,
Sparkling, in a crystal goblet, ABBEY'S EFFERVESCENT SALT.
When they drank the magic liquid, vanished every ache and pain.
Bacchus pulled himself together; Venus felt herself again.
Then said Jove, "When gods approve it, sure it is those mortals' fault,
If they suffer any ailment, since they can get ABBEY'S SALT."
Pleasant 'tis, and most refreshing, and disease it keeps away.
I myself shall, in the future, take one glassful every day;
As a drink it far surpasses all that's made from hop or malt.
'Tis the best of all inventions—"ABBEY'S EFFERVESCENT SALT."

IMPORTANT TO ALL.

ENO'S "FRUIT SALT"

is absolutely necessary for the preservation of Health.

YOU cannot overstate its great value in keeping the BLOOD PURE; as a means of keeping the system clear, and thus taking away the groundwork of Malarious Diseases, BLOOD POISONS, and all Liver Complaints, or as a HEALTH-GIVING, REFRESHING, COOLING, and INVIGORATING BEVERAGE, or as a gentle Laxative or Tonic in the various forms of Indigestion ENO'S "FRUIT SALT" is invaluable.

IT IS THE BEST PREVENTIVE AND CURE FOR

Biliousness. Mental Depression. Skin Eruptions. Constipation.
Sick Headache. Giddiness. Liver Derangements. Feverishness.
Unnatural Excitement. Errors in Diet. Thirst, &c. Impure Blood.

A SPARKLING AND REFRESHING DRAUGHT.—Notwithstanding its medicinal value, the "FRUIT SALT" must be looked upon as essential as breathing fresh air, or as a simple and safe beverage under ALL CIRCUMSTANCES, and may be taken as a sparkling and refreshing draught in the same way as Lemonade, Soda Water, Potass Water, &c., only it is much cheaper and BETTER, IN EVERY SENSE OF THE TERM, TO AN UNLIMITED EXTENT.

HEALTHY BILE.—When the liver is not making healthy bile, or insufficient quantity, the blood becomes impure—the groundwork of disease, and produces constipation, dyspepsia, biliousness, headache, &c. ENO'S "FRUIT SALT" is the best remedy.

ENO'S "FRUIT SALT" *versus* BRANDY.—"There were a few attacks of mild dysentery, brought mainly on by ill-considered devotion to brandy, or biliousness produced by the same cause. For the latter we used ENO'S 'FRUIT SALT,' which is simply invaluable."—*Coral Lands*, Vol. 1.

HOT COUNTRIES.—ACIDITY OF THE STOMACH, &c.—"I have personally used ENO'S 'FRUIT SALT,' and know it not alone to be excellent, but really invaluable. Especially must this be the case in the hot countries of the East, where Acidity of the Stomach, Biliousness, and Fevers are so common."—J. M. PEEBLES, M.D., Author of *Around the World, Travels in Polynesia, China, India, Arabia, Egypt, &c., &c.*

THE SECRET OF SUCCESS.—"A new invention is brought before the public, and commands success. A score of *abominable imitations* are immediately introduced by the unscrupulous, who, in copying the original closely enough to deceive the public, and yet not so exactly as to infringe upon legal rights, exercise an ingenuity that, employed in an original channel, could not fail to secure reputation and profit."—ADAMS.

CAUTION.—*Legal Rights are protected in every civilised country. Examine each bottle and see that the Capsule is marked ENO'S "FRUIT SALT." Without it you have been imposed on by a* WORTHLESS IMITATION. *Sold by all Chemists, &c. Prepared only at* ENO'S "FRUIT SALT" WORKS, Pomeroy St., London, S.E., by J. C. ENO'S Patent.

BLENDED OLD SCOTCH

12 Years Old *** (*Gold Capsule.*)
8 Years Old ** (*Blue Capsule.*)
5 Years Old * (*Green Capsule.*)

An exquisite blending, possessing a flavour so rare, a character so novel and so entirely its own, that it may fairly claim the very first place among high-class stimulants. Clever judges pronounce it *unique & unrivalled.* B.O.S. is remarkable for its "delicious individuality of flavour," mellowness and softness on the palate—"A very nectar" in marked contrast to ordinary blended Whiskies, which are more or less dominated by one or other of the Whiskies used in blending.

☞ *B.O.S. is sold in square white Bottles, labelled and capsuled, the age being notified by a small label on each Bottle.*

The proprietors are skilled blenders of Scotch Whiskies, but in all the experience of their Firm, extending nearly over the present century, they have never been able to accomplish anything so fully complying with the most exacting tests, as is now presented in this special blend of B.O.S.
